

Item

Additions to the Eligible Training Provider (ETP) List

Background

Staff recommends the following addition to the Eligible Training Provider List. These requests are usually heard by the WIA Oversight Committee; however, due to the time between the requests and the next scheduled meeting of Oversight, staff requests the Executive Committee act on their behalf.

Pending Initial Program

- Allied Health Career Training
 - EKG Technician
 - LPN IV Certification
 - Pharmacy Technician

These three programs meet the requirements for addition to the ETP list and are included on the Program Year 2014 Demand Occupations List for Local Area IV. Staff recommends approval.

- Plumbers and Pipefitters
 - Apprenticeship

Plumbers and Pipefitters have previously held a business account with WA, however, training services have not been provided to their apprentices in the past. Adding them to the ETP list will enable the apprentices to receive supportive services such as assistance with tools, uniforms, etc.

Staff recommends the following requests for addition to the ETP list be denied.

Pending Initial Program

- Allied Health Career Training
 - Activity Director and Social Service Designee
 - Operators Training Course
 - Restorative Aide

These are not recommended for addition to the ETP list. The Activity Director and Social Service Designee and Operators Training Course are not on the Demand Occupations list for Local Area IV. The Restorative Aide certification does not meet the self-sufficient wage criteria of \$12.02 per hour.

Recommended Action

Approve the list and modifications as presented.

**WA Eligible Training Provider
Programs Information
August 2014**

Provider Name	Program Name	Occupation/ Industry in Area IV	Length of Training	Approximate Cost Per Credit Hour In State	Approximate Total Program Cost	Type of Attainment	\$ Per Hr.	Recommended Action
