Comments:	<p>Based in Wichita, Kansas, MAX Aerostructures is the start-up aerospace manufacturer that was inspired by big dreams and aspirations but founded on real-world experience and hard work. The result has been a dream come true for all involved, from Wichita-based partners who founded our company to the many employees who have made it possible. In less than a decade, we have become a leading aerospace manufacturer with an even more ambitious vision for the years to come, including our recent expansion in capabilities that enables us to support semiconductor manufacturers.</p> <p>MAX Aerostructures has been approved for PEAK through the Kansas Department of Commerce. MAX Aero anticipates creating at least 20 new positions a year for the next two years, and have already started upskilling/cross training employees.</p>
OJT Funding Streams <i>subject to availability</i>	All Funding streams are available and appropriate based on occupation and new hire eligibility requirements.

Recommended Action

Approve addition of MAX Aerostructures to OJT ETP list.
