

**EPA Brownfields Outreach Request for Proposal  
Pre-Proposal Questions  
Posted 9/16/2025**

**Official Responses**

- #1      Could this RFP be an event(s) to recruit participants? Are you looking for small events or one large event?**

*The proposers are free to submit proposals for any events (large or small, new or existing), we feel it is up to the proposer to identify or create events will lead to meeting the performance criteria published in the RFP.*

- #2      During negotiations will the proposers know what organizations will be providing the training?**

*Workforce Alliance should have the training RFP completed at the same time as this RFP. The Workforce Alliance is planning to identify the training providers during the negotiations of this award so Workforce Alliance should be able to share that information.*

- #3      Will participants sign up for the program at recruitment events?**

*The Workforce Alliance will work with the contractor to determine a set referral process(s). The contractor will refer participants to the Workforce Alliance. Referrals are accepted in multiple ways including workforce-ks.com website and email. If there is a specific event where it would be beneficial to conduct enrollment sessions with Workforce Alliance staff, Workforce Alliance is open depending on staff availability. Contractors will want to track their referrals.*

*Any community partner could submit a referral through our website at any time.*
